MEMORANDUM FOR AFSAC/IA

FROM: SAF/IAPX
1080 Air Force, Pentagon
Washington, DC 20330-1080

SUBJECT: Policy for the Funding of a Technical Coordination Programs (TCP) and International Engine Management Programs (IEMP) Policy and Management Oversight Position (IAPX02-019)

The FMS administrative budget traditionally funded this position even though SAF/IARW 'owned' policy and management of the TCP and IEMP organizations. However; during budget cuts in the mid-1990's, AFSAC made a determination to eliminate the position. It was viewed as duplicative of SAF/IARW roles and responsibilities. Subsequently, facing the lose of the this position, the TCP and IEMP organizations agreed to provide case funds, determining the position provided valuable support to the programs.

With the re-write of AFMAN 16-101, ownership of policy and management oversight of subject programs is shifted to AFSAC/IA. Therefore, it is no longer appropriate to case fund this position. Beginning with FY03, subject position must be reimbursed through the FMS administrative budget vice program case funds.
